The Delta Ops Scenario Paintball Team and Exotic Sportz® are very proud to present the: "THE DAY OF THE RANGERS" On October 3rd 1993, during a daring daylight raid against the Somali Clan Habr Gidr, the fighters of Warlord Mohamed Farrah Aidid shot down two Blackhawk helicopters of the American Task Force Ranger. Their mission to abduct two top lieutenants was supposed to take an hour, but turned into the longest sustained firefight since the Vietnam War. America's military records this as The Battle of the Black Sea, but in Somalia it will forever be remembered as The Day of the Rangers. With the story based on this heroic battle, Hell Survivors® returns to Scenario paintball that includes night play! Task Force Ranger (the Americans) will be out numbered 3:1. In addition Clan Habr Gidr (Somalis) will reinsert/respawn every 5 min., versus the Americans every 15 min. To balance this, the US will have tank support and medics allowing them to be "healed" up to three times before they must return to the dead zone. NEW "Paintball Flea Market" reserve your booth space today and turn your old paintball equipment into some quick cash. Hurry space is very limited! Grenades, mines, smoke, rocket launchers and night vision are highly encouraged. Additionally, we will be using LAW/RPG rules, which will have the ability to destroy bunkers, soft buildings, and tanks.
