THE DAY OF THE RANGERS

28-HOUR SCENARIO GAME™

GAME DESCRIPTION: On October 3rd 1993, during a daring daylight raid against the Somali Clan Habr Gidr, the fighters of Warlord Mohamed Farrah Aidid shot down two Blackhawk helicopters of the American Task Force Rangers. Their mission to abduct two top lieutenants was supposed to take an hour, but turned into the longest sustained firefight since the Vietnam War. America's military records this as The Battle of the Black Sea, but in Somalia it will forever be remembered as "The Day of the Rangers". With the story based on this heroic battle, Hell Survivors® gives you scenario paintball at its best with a 28-hour format including night play! Task Force Rangers (the Americans) will be out numbered as much as 3:1. In addition, Clan Habr Gidr (Somalis) will reinsert/re-spawn every 5 min. versus the Americans every 15 min. To balance this, the US will have tank support and medics allowing them to be "healed" up to three times before they must return to the dead zone. Grenades, mines, smoke grenades, grenade launchers and night vision are highly encouraged. Additionally, we will be using LAW/RPG rules, which will have the ability to destroy bunkers, soft buildings and tanks. It's going to be a blast, don't miss it!

Join Delta Ops and Exotic Sportz® in the Re-making of HISTORY in this FUN & EXCITING 28-Hour Scenario Game!

One-on-One Pistol Shoot Competition during dinner. Prizes awarded to the best shooters!
