

HELL SURVIVORS® SAFETY RULES

Paintball Playfield - (734) 878-5656 - HellSurvivors.com

We operate this facility with the “3-strikes and you’re out” program. This means if you are violating any of these rules or displaying any un-sportsmanlike conduct, your day tag will be hole-punched and a ticket will be written up to two times. The third violation will result in your tag being removed (VIP’s included), and you will be ejected from the playfield with NO REFUNDS! If the violation is sufficiently serious, you may be banned from Hell Survivors® Paintball Playfield permanently!

NOT COMPLYING WITH ANY OF THE RULES BELOW IS A VIOLATION OF THE SAFETY RULES!

RELEASE FORMS: NO ONE can enter the playfield without a signed release form. If you are ages 10 to 17 your parent must sign your release form and responsibility of equipment form. Adult players are responsible for their rental equipment and must have a valid drivers license for collateral until equipment is returned at the end of the scheduled game.

GOGGLES: Approved paintball safety goggle systems (including full face and ear protection) must be worn at all times while on the playfield and at the shooting range. This is extremely critical and will be strongly enforced throughout the day. Anyone caught lifting their goggles on the playfield will be ejected from play on the spot! Any goggle systems (or lenses) deemed unsafe are PROHIBITED!

PAINT: We are a Field Paint Only (FPO) paintball playfield. We will conduct hopper, tube and pack checks randomly throughout the day. Anyone caught with any other brand of paintballs other than “FIREBALL®” brand paintballs will be ejected from the premises, without refund. Absolutely No paint other than the paint purchased from Hell Survivors® Paintball Playfield or Exotic Sportz®, 1s allowed on the premises NO EXCEPTIONS!

PAINT GRENADES & PAINT MINES: Paint grenades & paint mines MUST be the Tippmann® brand (specially formulated) with the light baby blue paint. No Exceptions! Any speckle at all from these weapons, on you or your equipment will constitute a hit. You are out! Only paint grenades & mines made by Tippmann® and purchased from Hell Survivors® or Exotic Sportz® are allowed!

SMOKE GRENADES: Smoke grenades must be purchase exclusively from Hell Survivors® or Exotic Sportz®. Absolutely no exceptions. Using other products will result in a safety violation.

HOME MADE DEVICES: No home made paintball guns, launchers, flame-throwers or grenades are allowed on the premises. No exceptions!

BARREL COVERS: Approved barrel covers (barrel sock) must be on all guns & launchers at all times while in the dead zone, camping and parking area. All guns & launchers must be kept pointed in a safe direction (up or down), have the safety on and fingers OFF the triggers. No shooting, dry firing or throwing of paintballs or grenades anywhere in the dead zone, camping or parking areas.

RADAR: All paintball guns & launchers must be radared and tagged by a referee. The radar maximum speed limit for all paintball guns is 289-fps or lower. The maximum speed for launchers is 225-fps or lower. Launchers are ONLY allowed during specific scenario events.

NOT ALLOWED: NO tools, knives, fireworks or smoking are ever allowed on the playfield.

PAINT BREAKS: Any Paintball that breaks on you or your equipment counts as a hit: headshots, body-shots and gunshots. Even ‘friendly fire’ counts as a hit. If you end up with paint on you or your equipment, you are out. It doesn’t matter how it got there. However, if the paintball did not break you are still in, but you must yell “No-Break” to remain in & continue to play.

ELIMINATED PLAYERS: Once you have been eliminated, immediately put your barrel sock on, keep your gun pointed high in the air, yell “OUT” and head for the dead zone, keeping your goggles on at all times. Do not remove your goggles until you have completely exited the playfield (past the orange barrels). Dead men don’t talk or hand off supplies. It is a safety rule violation to use any eliminated player or referee as cover while the game is on. Any phony gestures to simulate that you have been eliminated, such as yelling “ouch”, or handling or fumbling with a barrel cover, and you are out! Walking with your gun pointed in the air, stepping out of bounds or stretching boundary lines, and you are out! Remember, no barrel covers on your gun means that you are in play; still a target.

OVER SHOOTING: No over-shooting. Anyone caught doing so will be ejected from the games.

WHISTLE OR HORN: When you hear a whistle or an air horn, stop shooting immediately. This means the game is over. Put your barrel cover on and keep your goggles on until you are completely off the playfield and have reach the dead zone.

CHEATERS: Cheaters will not be tolerated. Any player that is caught playing with obvious hits on them or their equipment, will be ejected from the game.

PHYSICAL CONTACT: Absolutely no physical contact between players. Do not ever touch another player and no ‘barrel tagging’ allowed.

OBSENIITIES: Verbal obscenities or gestures will not be tolerated.

REFEREES CALLS: The referee’s call is final. Never argue with a referee or game official.

DO NOT SHOOT: Do not shoot at any animals or anyone wearing hunter orange or a black & white striped referee jersey.

CLIMBING: Do not climb trees; do not climb on the roofs of buildings, or any thing else that does not have steps.

FILL STATIONS: No personal fill-stations of any type will be permitted on the premises.

PROHIBITED: Illegal drugs, alcohol and unapproved solicitation are all prohibited on the premises.

Hell Survivors® Paintball Playfield management and or game officials reserve the right at any time to remove a player that is acting in an unsafe or un-sportsman like manor or any equipment deemed to be unsafe.

Paintball Playfield - (734) 878-5656 - HellSurvivors.com

PLAYING ADVICE

- (1) **Wear Full Clothing:**
Even in hot weather. The paintballs will lose a lot of sting when hitting clothing compared to bare skin. Loose clothing absorbs the shock better.
- (2) **Wear Old Clothing:**
The darker the clothing the better. The paint will wash out, however, the clothing may get torn. Camouflage is the best clothing of choice among paintballer's.
- (3) **Large Pockets:**
On clothing are good for carrying spare ammo. You may want to bring a pouch or bag of some sort, which can be attached to your belt. Otherwise, bring a belt we can sell/rent you an inexpensive pouch if you decide you need it.
- (4) **Wear Boots or Hi-Top Shoes:**
This will provide better ankle support. Also, expect muddy and wet areas on the playfield, so be prepared.
- (5) **It is advised that you show Up ON TIME:**
This will enable you to have a chance to practice with your gun. Knowing your equipment is a valuable advantage. Also, you may want to walk the playfield to become familiar with the area.
- (6) **We Will Give Orientation on Safety, Game & Equipment Rules Before Play:**
Please pay close attention! Ask any and all questions before the play starts and you head out onto the playfield.
- (7) **Try to Keep the Guns Out of Water and Dirt:**
It will work better if you do. Also, between games, clean the barrel out with a squeegee, which will be provided, or you may purchase your own.
- (8) **Protect Your Paintballs:** Keep your paint between 60°-70° F and less than 50% humidity. COLD or HOT paintballs will break in your equipment and wet paintballs will NOT work at all! Never pick up paint from off the ground and try to use them in your gun.
- (9) **Don't Jam your Bulk Feeder:**
This will cause breakage of the balls and malfunctioning of the gun. Breakage will also occur from mishandling the feeder.
- (10) **Between Games, Get Ready for the Next One:**
Nothing is worse than not being ready when the game starts. Be sure to wipe off ALL paint from yourself and equipment. Refill your empty tanks & refill your paint and clean your goggles. Squeegee your barrel out. (Squeegees are in the radar range)
- (11) **Don't Leave Your Equipment Unattended:**
YOU ARE RESPONSIBLE FOR ALL YOUR EQUIPMENT!!
- (12) **Bring Mosquito Spray with you:**
Please don't spray your goggles with this it will destroy the lenses.
